Project Manager

Employment History

- 4/21 - 7/23 **Project Manager** [Granite Peak Fabrication - Casper, WY](#)
Managed the fabrication of over 1,500 non-code vessels and piping skids for deployment to the Permian Basin. Consistently completed projects under budget and ahead of schedule.
- 6/20 - 1/21 **Nuclear Project Manager** [Premier Technology, Inc. - Blackfoot, ID](#)
Managed the fabrication and construction of NQA-1 projects as part of PTI's Commercial Nuclear division.
- 3/20 - 5/20 **Project Manager / Estimator** [Granite Peak Fabrication - Casper, WY](#)
Quoted and managed the fabrication/assembly of various ASME projects.
- 2/19 - 2/20 **Program Manager** [Power Service - Casper, WY](#)
Acted as head of project management team. Supervised and provided support to a team of 8 project managers. Drove the team to deliver \$145m worth of fabrication projects in 2019, a \$30m increase over the previous year. Implemented new processes and policies that helped to streamline the manufacturing process and improve project on time performance to over 90%.
- 11/17 - 2/19 **ASME Project Manager / Estimator** [Power Service - Casper, WY](#)
Managed the fabrication and assembly of over \$10m worth of ASME pressure vessel packages and API 1104 Pipeline projects. Provided estimates to customers with a 95% on time completion rate. Generated an additional \$3m in revenue through sold estimates.
- 6/15 - 11/17 **Project Manager** [Nalco FabTech - Casper, WY](#)
Managed the production of equipment for Nalco Champion's heavy truck fleet. Was responsible for the timely and cost effective completion of fabrication projects as well as customer support and DOT compliance.
- 3/14 - 6/15 **Assembly Technician** [Nalco FabTech - Casper, WY](#)
Performed various tasks in the construction and testing of oilfield equipment, including pump assembly, installation of hydraulic systems, and pipe fitting.
- 4/10 - 2/14 **Nuclear Machinist Mate** [US Navy - Kings Bay, GA](#)
Responsible for the maintenance and operation of the ship's nuclear propulsion plant. Managed the training and qualification program for new plant mechanics. Participated in multiple Operational Reactor Safeguard Examinations and was recognized for high level of knowledge as a nuclear operator.
